

Exercise Pro Live - An online exercise software designed for physical therapists, athletic trainers and chiropractors for exercise programs and education for patients. Easy to use and comprehensive. Exercise Pro Live offers more features than any other online system.

Benefits:

- Superior patient compliance implementing pain/difficulty feedback and adherence tracking.
- Better patient outcomes by providing clear instructions, set, reps, and resistances.
- Improved patient exercise technique by providing video, illustrations and photos.
- Saves you time - no more drawing silly stick figures, copying out of books or searching for handouts.
- Enhanced therapist treatment and patient care by having access to thousands of different contemporary and evidence based exercises.
- 24/7 access for clinicians and patients.
- No software to install, no cost for upgrades, new features or content. No set up fees.
- Eliminates IT labor and resource costs.
- Works with mobile devices and smart phones.
- HIPAA compliant, data is encrypted, secure and backed up.

It's all about the Features

Content:

- Over 3000 exercises from low level rehab up to high level athletics.
- Education videos (crutch training, modalities etc).
- Add your own video and education topics.
